### Professional Summary

I am a BSIT student at University of Science and Technology of Southern Philippines with a passion for web/app development, machine learning, design, and cybersecurity. I have extensive experience in various programming languages and frameworks, as well as a strong interest in data analysis and innovative solutions through machine learning. Additionally, I am committed to learning and applying the latest cybersecurity practices to ensure secure application development. I am always eager to learn new skills and collaborate with other developers. Feel free to contact me if you have any questions or feedback.

---
